A 36-year-old Beaver Creek woman was hospitalized with two broken ribs, a broken bone above her eye, multiple contusions, and abrasions following an assault allegedly committed in her home during a family fight.

Friends transported the woman to Mercy Hospital early Monday morning and when Grayling City Police and Crawford Co. Sheriff deputies responded to the call, the assailant had already fled the scene. A search of the area failed to find the suspect.

Upon release from the hospital, the Beaver Creek woman and the sheriff dept. are expected to request a warrant for the arrest of the alleged assailant.

## Civilian Charged with Felonious Assault Attempting to Stop Range Firing Noise

A Grayling man, Thomas Crawford, has been charged with felonious assault after allegedly firing shots into the air near two Ohio guardsmen warning them to halt noisy range firing.

At 12:30 a.m. on Wednesday morning, August 3, two guardsmen at the corner of Stephan Bridge Road and North Down River Rd. said a man approached them, told them he was angry about the noisy range firing, and fired shots in the air telling them to knock off the range shooting. The two guards were posted at the corner to prevent civilians from entering into the range 30 area where tanks were firing that night.

At 5 p.m. the next day, Crawford Co. Sheriff deputies and a tracking dog handled by Sgt. Artress of the Otsego Co. Sheriff Dept. tracked down the suspect to his residence about one mile east of the intersection. A weapon was recovered that was allegedly used in the shooting incident. The weapon was submitted to the Mich. State Police Crime Lab in Grayling for examination.

Another summer violent thunderstorm struck the county last Wednesday afternoon. The marine division of the sheriff dept. once again assisted boaters on Lake Margrethe. Sheriff deputies and Grayling City Police were busy responding to alarms set off by the heavy rain, lightning, and thunder. One fire was reported in the Big Creek area of Lovells Twp. around a foot bridge. The Lovells Fire Dept. handled the blaze centered around a tree on fire. Sgt. Paul Smith, of the sheriff dept., said no other injuries or accidents as a result of the storm were reported.

On Thursday, Aug. 5, a 36-year-old Hartland man was injured when a van collided with his motorcycle at the I-75 business loop and M-72 East intersection. Orlo Insley was northbound on the business loop when a van driven by Frances J. Dixon, 31, of Grayling, allegedly turned left in front of the motorcycle. Dixon was cited by Grayling City Police.

## Plan Now For Winter Fun

## Both Downhill and Cross Country Memberships Available at Hanson Park

It may be the middle of August, with plenty of sunshine and hot weather, but the staff and management of Hanson Park have already begun to think skiing and if you are a participant of the sport, right now would be a good time for you to turn your thoughts in that direction also. At their last meeting, the Grayling Recreation Authority established the rates of this year's memberships to Hanson Park. The decision was that membership rates would remain the same as last year and that a new Cross-Country membership was to be added. Rates for a full membership, which includes both downhill and cross country skiing, will therefore be \$112.50 for students, \$137.50 for adults and \$250.00 for family memberships. However there will be a special reduction of 10% for all those who purchase their memberships prior to November 1, 1982. Cost of Cross-Country only memberships is \$20.00 for students, \$30.00 for adults and \$50.00 for families. Cross-country memberships will also be sold with a 10% savings until November 1, 1982.

At that same meeting of the Grayling Recreation Authority, the daily rates for the coming ski season were established. Student tow fees were established at \$7.50 per day with half day and night rates set at \$4.00. Adult tow fees were set at \$8.50 per day with the half day and night ticket selling for \$4.50. Cross country trail tickets will be \$2.00 per day for all skiers. Ski rental rates were set at \$7.50 per day

**STREET WORK BEGINS**—A St. Johns firm, Searles Construction, began work last week on this year's street improvement project. Here, pipes are laid for the sewer system. City Manager Jerry Morford, pictured at left, said Fulton, Brink, Mikado, Plumb, three blocks of Date, and Ingham - from Peninsular to Maple -

will be paved as part of this year's \$242,700 project.

Many of the streets needed sewer work as well and Morford said by doing sewer and street improvements at the same time, time and money is saved. The streets will be dug up only once instead of twice.

## Downstate Minnow Dealers Continue Taking Margrethe, K.P. Lake Fish

by Jon Thompson  
Downstate commercial minnow dealers have returned to Lake Margrethe and K.P. Lake following the lifting of a ban and are netting millions of minnows to sell to downstate fishermen.

Early this year, the commercial fishermen had been banned from the two Crawford County lakes, Higgins Lake, and five other northern lakes by the DNR. Not only was it feared that the over-harvesting of minnows hurt the entire fish population at the lakes, but complaints were filed against the commercial harvesters for trespassing, damage to docks and other lakefront property, and verbal abuse

to lake property owners.

In July, however, the DNR Commission lifted the ban after a group of Saginaw Bay minnow dealers presented their side. According to an article in the August issue of the North Woods Call, the Saginaw Bay minnow dealers obtain 80-95 percent of their minnows from Lake Huron. They said they only go to the eight inland lakes when weather forces them off the big lake. Most of the minnows they net from Lake Margrethe and K.P. Lake are sold to Saginaw Bay perch fishermen.

Both DNR regional fisheries chief Jerry Manz and district fish chief Gary Schnicke are opposed to the

commercial harvesting on the small lakes. They feel the small lakes are delicately balanced and large-scale harvesting of minnows can deplete the lakes of critically needed forage.

Rex Moulton, President of the Lake Margrethe Property Owners' Assoc., said the minnow dealers were back at Lake Margrethe last week after the ban was lifted.

"They take an awful lot of fish," he said. "They can catch millions of minnows every time they come."

The LMPOA has sought a ban on the minnow-harvesting since 1976. Moulton said his group will be attending the next DNR Commission meeting at Higgins Lake to

try and re-establish the ban. Because of their minnow populations and type of bottom, the minnow dealers have mainly used Lake Margrethe, K.P. Lake, Higgins Lake, Tea, Grand, Long, Cedar, and Sand lakes. Property owners who want to protest the re-opening of lakes for commercial minnow netting can get on the DNR Commission's agenda by calling the commission's secretary John Robertson, in Lansing, at 517/373-2352.

Property owners and other civilians can reserve a spot on the agenda for the Thursday, Sept. 9, afternoon portion of the commission meeting by calling or writing.

## Weyerhaeuser Start-Up Nears

The start-up date for Weyerhaeuser - the day the \$60 million new plant begins turning out products for sale - could come this September. Currently, Edwin Wyle, Weyerhaeuser Human Resources Manager, said the plant is still in the phase of training personnel and "commissioning." "Commissioning" is turning over new machines, starting systems to run, tying together operations, and other machine start-up work.

Wyle said the wood-handling section of the plant has all its systems ready to go. The press section of the plant is not through commissioning yet and the finishing area of the plant still has sections under construction.

Within the next 15-30 days, Wyle said they would like to go through the entire plant and start running all the equipment. Then in September, the plant could start turning out products for sale.

All of the employees needed to operate the plant have already been hired. Production personnel were hired by May 24 and have been receiving technical and non-technical training since then.

The 210,000 square foot facility will produce Structurwood - flakeboard used in construction for roofing, flooring, and walls. The new plant will be capable of producing about 215 million square feet of Structurwood a year. The plant can be operated 24 hours year-round except for periods of maintenance work. Approximately 160 employees will operate the plant and their annual payroll is estimated at \$3 million including wages and fringe benefits. Area officials estimated about 100

jobs in related wood-cutting work in the area will be created by Weyerhaeuser's need for wood.

The 500-acre site of the plant is located off Four Mile Road, one mile east of I-75 in Beaver Creek Township. Clearing at the site started in 1980 and construction started in early 1981. Weyerhaeuser

has constructed a two-spur railroad line from its plant to the Detroit and Mackinac Railroad line nearby. The railroad line is expected to help Weyerhaeuser ship finished products and acquire raw material at a price that will enable Weyerhaeuser to be competitive in Midwest markets.

## Ohio's 107th Training Here

By Spec. 4 D.S. Dankworth  
198th Public Affairs Detach.

Members of The Ohio National Guard's 107th armored cavalry regiment have traveled to Camp Grayling for annual training year after year, but some of the soldiers saw something new when they came to camp July 31.

The National Guard, in conjunction with the Army, has built an eight-mile armored personnel carrier course for cavalry scout troops to train on.

The scout crews, manned in teams of four on 11-ton, 750-horsepower personnel carriers, took the all-day course last week.

Capt. Michael Stoiber, commanding officer of Troop E, second squadron based in Canton, said the Guard and Army have worked on the new course for the last 13 months.

During the grueling course the scouts encounter realistic combat situations including: mine fields with explosive simulators, tear gas, ambushes by the enemy

Guardmembers dressed in makeshift Soviet uniforms, and demolition exercises.

At different locations on the course the troops fire blanks from M-16 rifles and machine guns, but they also fire live ammunition during one part of the exercise.

After four or five hours on the course, the soldiers then go through a night phase scout exercise.

"This course is a good course. It's graded to let the COs (commanding officers) and scouts know where they're at (in training)," Stoiber said.

The full-time soldiers from the Army who are working with the 107th at Grayling also seem to think the course is good training, but they have more to say about the civilian-soldiers.

"I like working with these guys," Sgt. Daniel Kilmer, from the Army's 194th brigade at Fort Knox, said.

"They're out here 100 percent and they're really interested."

Kilmer said the Army has

## Notice of a Public Hearing on Increasing Property Taxes

PLEASE TAKE NOTICE that on August 23, 1982, at 7:30 o'clock p.m. at the High School Library the Board of Education of Crawford AuSable School Dist. will hold a public hearing on the levying in 1982 of an additional proposed millage rate of .92984 mills for operating purposes pursuant to Act 5, Public Acts of Michigan, 1982.

The Board of Education has the complete authority to establish that 24.1 mills be levied in 1982 from within its present authorized millage rate.

The maximum additional proposed millage rate would increase revenues for operating purposes from ad valorem property tax levies in 1982 otherwise permitted by Act 5, Public Acts of Michigan, 1982, by four percent (4.0%).

The purpose of the hearing is to receive testimony and discuss the levy of an additional millage rate. Not less than seven (7) days following the public hearing, the Board of Education may approve all or any portion of the proposed additional millage rate.

This notice is given by order of the Board of Education.

## From Our Corner ...

We have had many weeks where the gremlins have upset the apple cart in one way or another to confuse the issue in a story or a misspelled name...but I think this past week was the gem of them all...the biggest gremlin was the article on the election Tuesday...we had Democrats running in place of Republicans and vice versa...what puts the mud on our face is the fact we didn't have another paper to get out so that we could rectify our mistakes...we hope that our electorate will just ignore the confusion, and we are quite positive that the voters had their mind made up before now...another mistake we made was in the outline on the front page concerning the transition of the fish hatchery...we didn't give Mick McNamara his title, Mick is also a Lt. Col. out at M.A.T.E.S. and is active in the restoration of the hatchery into a museum...we hope the gremlins stay away for awhile, maybe they will after the election Tuesday...

How about these last few weeks of summer?...it almost makes one forget the sub-zero weather and winter storms of last January and February...doesn't it?

By the time you read this turkey, the election to set the party standard bearers will be complete...and all we have to wait for is the general election in November, and all the dirty linen each party will be bringing out about their opponents...to get the politics off the boob tube, it will be refreshing to hear Howard Cosell with a football game...come to think about it, I don't think there is much choice...one thing is certain, Michigan will be having a new governor to take over in January...and some changes in the legislative branch...which could be refreshing...

We had the pleasure Friday night to take in the Cherry County Playhouse presentation "On Golden Pond" starring Pat O'Brien who has always been one of our favorite actors, and we were amazed to hear that he will be 83 his next birthday...Thelma and I joined Larry and Moe McNamara for the play and at the first intermission we went out for an orange pop and some air, when we ran into a bunch of local people and at first we thought it was Grayling night...we ran into the Mick McNamaras (another Irishman), the Joe Merediths, the Gary Bofysils, the Earl Whaleys and the Ed Funcks...we had seen "On Golden Pond" at the Rialto a few weeks ago and wanted to see the stage version...in our estimation, Pat O'Brien did a fine job...what we looked for was the fishing trip with young Billy which they handled the best they could without a lake...Pat has a way with jokes, and he entertained the crowd for nearly a half hour with his Irish jargon...

We had Toni, T.J. and Stefany with us last Wednesday night and Thursday...we haven't seen them much this summer as they have a camper and have been going to the cities where John has been working for Western Electric...this graph is strictly for those who may be interested...

Disregard what we mentioned above about our summer weather being so nice...Monday brought a late fall day, like late October with an overcast sky occasional rain and we might add a bit chilly than we have become used to in the past few weeks...dang it, it is too early for these kind of days...we have enough during the rest of the year...

This does it for this week...we hope you exercised your privilege and voted Tuesday, if you didn't, don't gripe, you're the one to blame...good-night, T.J., Stefany and Amber...and to all our readers have a nice weekend...

It's your return that counts!

### Sanctification and Separation

Romans 8:35-39

Is it possible for a Christian to be separated from the love of God in Christ Jesus? Can anyone separate us from "him that loved us, and washed us from our sins in his own blood?" Revelation 1:5. "Who shall separate us from the love of Christ? shall tribulation, or distress, or persecution, or famine, or nakedness, or peril, or sword? As it is written, For thy sake we are killed all the day long; we are accounted as sheep for the slaughter." Romans 8:35, 36.

The answer comes across loud and clear: "Nay, in all these things we are more than conquerors over all these things. But is the list complete? No.

"For I am persuaded, that neither death, nor life, nor angels, nor principalities, nor powers, nor things present, nor things to come, Nor height, nor depth, nor any other creature, shall be able to separate us from the love of God, which is in Christ Jesus our Lord." Romans 8:38, 39.

Nothing dead or alive, no being in the universe, nothing existing now or which shall exist in the future, nothing from the highest Heaven to the deepest Hell, nor any other creature including yourself can separate you from the love of God, which is in Christ Jesus our Lord. If you are in Christ

Jesus our Lord, there is nothing which can remove you from God's love.

"The love of God is greater far Than tongue or pen can ever tell; It goes beyond the highest star, And reaches to the lowest hell; The guilty pair, bowed down with care, God gave His Son to win; His erring child He reconciled, And pardoned from his sin."

"Could we with ink the ocean fill, And were the skies of parchment made, Were every stalk on earth a quill, And every man a scribe by trade; To write the love of God above Would drain the ocean dry; Nor could the scroll contain the whole, Tho' stretched from sky to sky."

"Oh love of God, how rich and pure! How measureless and strong! It shall forever more endure, The saints' and angels' song." (adv.)

Pastor Barnett

# Seek to Organize Help for POW-MIA

## Named Mining Engineer

For all his 48 years, Sergeant First Class Ronald V. Regan, a member of the 107th Armored Cavalry Regiment, Ohio National Guard, says his name has been more of a hindrance than most people would believe.

However, he said, he is hoping it will be enough of an attention getter to provide help in his efforts to build an organization to aid the National League of Families of American Prisoners and Missing in Southeast Asia.

His aim is to form a coalition of separate POW/MIA groups and provide guidance for a unified effort to generate public awareness on this issue.

Regan emphasized that he wants to bring back those 2,500 American fighting men, who may be either dead or alive in some filthy and stinking POW camp somewhere in Indochina.

Regan, when not wearing his Ohio National Guard uniform, is a technical writer for the American Electric Power Service Corporation of northeast Ohio.

He also said that he himself has no missing friends or relatives who are prisoners of war or missing in action.

But, his nephew lost a leg in Vietnam, and his interest in recent reports that American prisoners do indeed exist as prisoners prompted him to write President Reagan, to officials of the U.S. Postal Service, and to U.S. Senators and Congressmen.

Regan suggested a commemorative stamp be issued as a tribute to POW's and MIA's. The stamp is to be considered by a committee in the U.S. Postal Service sometime in 1983, he said.

"I want to organize local groups of veterans and people interested in doing something. I can not wait for the Georges of this world to do things. If I did, then nothing would ever be accomplished. I want people to become more aware of the American tragedy where 2,500 human beings are endlessly waiting for someone to release them from a living hell!", Regan said.

He continually wears a battered and scratched up aluminum bracelet on his right wrist that is inscribed with the name of a Captain Stephan Hanson, USMC, June 3, 1967. Captain Hanson has been missing for 15 years.

"I don't think our men should be used as political poker chips anymore," said Regan. "If the Vietnamese, or the Cambodians, or the Laotians have the bodies of thousands of our servicemen, then I think it becomes our personal duty we become interested in getting those remains back home."

In conclusion, Regan said, "When the day comes that we can not expend one ounce of effort, or one second of our precious time to secure the return of our boys, then America has lost!"

Anyone who is interested in getting more information about how a person can help the POW/MIA League, should write to Mr. Regan in his hometown of Canal Fulton, Ohio. He will gladly see to it that you receive information and suggestions on how to help the POW's and MIA's. There are over 78 Michigan servicemen who are still missing or are in captivity since the Vietnam War began.

### Ideas From The Japanese

In the wake of revelations that Japanese businesses are stealing technological secrets from American firms, a management expert says American businessmen can learn a lot from the Japanese style of management. One aspect that contributes to increased productivity is the Japanese attention to the human aspects of life in the workplace.

courses similar to the new one at Grayling.

"I think for the first time doing it, they're doing a damn good job," Kilmer said of the Guard soldiers.

For Sgt. Jim Sloban, Painesville, Ohio, and a member of the 107th's Troop 1, the course is a big challenge.

Breathing hard with sweat running down his dirty face, the 34-year-old Sloban said during the course that his civilian job as a chemist does not involve a lot of manual labor.

"It's not very physical. I mess with test tubes all day."

But the Vietnam veteran, who lives with his wife and three children, said he still can handle the annual training.

"I can still do it, but not like I used to."

### Governor Sets Priorities For Remainder of Term

Warren M. Hoyt, Executive Director, MPA

Governor William G. Milliken, who is ending 14 years as Michigan's chief executive, said he will devote most of his attention in the last few months of his tenure on budget problems, resolving unemployment compensation debt and financing and developing a transportation package.

He said, referring to the agenda for the next five months, "it's about as tough an assignment overall as the recent temporary income tax fight," which he had once described as the toughest of his political career.

Further rearrangement of the state budget appears likely as the state continues to be plagued with a slow economy and increasing welfare spending.

He added a welfare supplemental appropriation for the year ending September 30 is a certainty, but could not give a specific amount.

With the worsening economy, further departmental spending cuts will probably be ordered.

Adding another aspect to the problems will be the fact that the Legislature, when it reconvenes for the fall session in late August, will be working to complete a budget for the new fiscal year beginning October 1.

Milliken said revisions appear to be needed in his 1982-83 budget recommendations, but specifics would not be available until at least mid-August when July revenue figures are available.

He confirmed that there will be no new revenues in those revisions and said extending the income tax increase would be "unthinkable."

Milliken reported he is still reviewing a report by the state Department of Commerce and Labor on restructuring the unemployment system, saying he hopes it will be to put together a consensus for a solution from labor, management

and legislators.

He said he was unsure when he would make his own recommendations but said it is imperative the problem be resolved prior to the end of the calendar year.

Estimates indicate Michigan will be in debt to the federal government some \$2.2 billion by the end of the calendar year due to the state's continued and high unemployment rates.

Milliken said the starting point for unemployment reform will be the release of a report on the subject, followed by discussions with labor, management and legislative leaders to determine if there is a basis for common action.

The problem, he noted, includes both trying to get business and labor together, as well as trying to get all segments of business to agree on an approach which he said should "stop the bleeding" and reduce the accumulated debt.

"It is one of those issues which will be painful to all and satisfactory to none," he said.

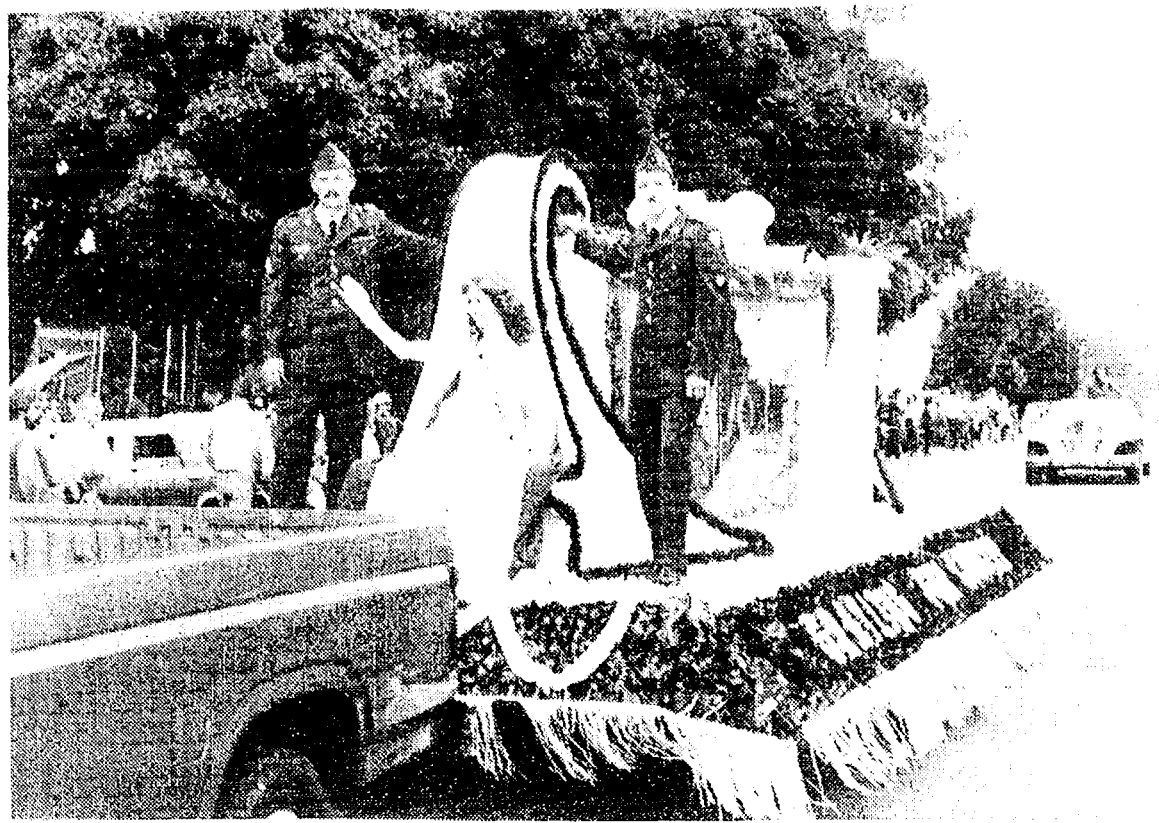

Many proposals provide for increased business payments, tighter eligibility for benefits and even payments from employees.

He said some progress has been made at the federal level for forgiveness of a portion of the debt.

Additional revenues will be necessary for a revised transportation plan which will cover all modes. Those programs may include shifting the tax on gasoline from a per gallon tax to a percentage rate that will increase state revenues as the price of fuel goes up and increasing licensing and transportation fees.

The agenda set forth by Milliken would be difficult for a full four year term. But Milliken has five months before a new governor and legislature takes over. It's a commendable task for someone who could just cruise during the remainder of his term.

## Grayling Float Has Received Many Prizes

If the Grayling Parade Float could talk, it would relate a tale of prizes won and miles traveled.

It would proudly say that recently it received a second place award in the Bavarian Festival at Frankenmuth. Mrs. Debbie Branch, executive director of the Grayling Regional Chamber of Commerce, chauffeured the float on one of its most long distance treks and C of C Vice President Ernie Dawson piloted it through the streets of the town.

It was first used only a few days after it was built in 1976 by its then owners, the Downtown Bay City Corp. for the bicentennial parade. From that time until 1978 it was the possession of the Bay City organization and competed in many parades. It received seven first place awards and one second place.

Until it was purchased by the Grayling C of C, its various display panels contained paintings in the bicentennial historical theme. The original art work was done by Terry Dickinson of Bay City who has painted the murals that adorn the walls in Grayling and the inside walls at the Grayling Holiday Inn.

In 1978, when Grayling purchased the float, Dickinson was commissioned to create artistic scenes depicting Crawford County.

At that point, the float really went to work as it participated in more festive trips in one summer than it had in its history at Bay City. For each of its succeeding four years, it traveled to and

sauntered down roads an average of twelve times per season. It is estimated that the float has traveled over 3,000 miles in its quest for good will to Grayling and prizes in competition. Prior to the Frankenmuth award, it won first place in the Trout Festival at Kalkaska, traveling excellence at Elk Rapids and best commercial float in the Alba parade in 1981. In 1980, it received acclaim as the best non-commercial at St. Helen, where it also won a handcarved plaque of a bluegill as the Veterans of Foreign Wars prize.

Also in 1980, it was regarded as the most beautiful entry in the Gerrish Township Centennial parade, first at the Harrison Mardi Gras and best of parade at Gerrish.

1979 saw the float win more awards in the Trout Festival, Tip Up Town and Mancelona Bass Festival.

This year Dickinson was commissioned to redo the murals and it is now prepared for another stint of highway travel to invite people to the Hub of Four Seasons Sports, Grayling.

If it could talk, it would say that it has represented much hard work from wear and tear and on the part of the humans who have had to haul it from one community

## Quilt Show

The Icehouse, a unique fabric and gift shop in Grayling, will be holding its First Quilt Show, on August 21, 1982, in the upstairs. The show which is open to everyone at no charge, will feature a variety of quilts—old and new—as well as quilted clothing, wall hangings & various other quilted projects. It will open at 10:00 and run until 5:00 p.m. The show, a first for the Grayling area is under the direction of Jill Wyman, proprietor of The Icehouse, and Marian Welsh of Grayling. Marian is an experience quilter and will have some of her many works displayed.

Winnie Riddle, of Indian River, and a quilting instructor at the Icehouse will be demonstrating quilting techniques throughout the day, and will be available for questions. Many of Winnie's students will have their quilting projects displayed, some of which are still in the "making."

The shop which will be open for "business as usual" houses a variety of fabrics, patterns and quilting supplies for your convenience. Be sure to browse at some point during the day to catch-up on all the new and exciting ideas the shop has to offer. In conjunction with the show Saturday, a local Grayling organization will be sponsoring a Bake Sale...so there will be a "feast for the eye, as well as the palate!"

Anyone who would like additional information on the show, or if you would like to display a quilt, contact Jill at The Icehouse...348-4821. Just be sure to set the day aside, and plan to attend for a fun day of sharing old and new ideas. Whether you are a connoisseur of quilts, a collector, or novice there will be something there for you!

**Pig Roast at Country Club**

The annual Pig Roast for 1982 is now history with the usual excellent turnout of members filling the clubhouse to capacity. The chef this year was Smoke Meyers of Roscommon and he was aided by Dale Nielson and Herb Olson who were the committee in charge of the party.

Scrambles were played previous to dinner with prizes going to Ken and Mabel Gothro and Melvin and Ruth Nielson with 35 and Bruce and Corrine Smith and Dale and Mary Pettengill with 35. Longest drive on No. 1 was Don Meehan and closest to the pin on No. 8 was Ken Wyman. Longest drive on No. 4 was Fay Bovee and closest to the pin on No. 3 was Ruth Nielson. Following dinner many door prizes were given away.

Entertaining the guests during the cocktail hour were video tapes taken by Herb and Dale while golf was being played. The members enjoyed (???) seeing themselves in action.

The roast pig for dinner was accompanied by a very excellent dinner prepared by the girls at the club and Barb Nielson and Cindy Olson.

## Doodles From The Tall Timber

Wendell L. Hoover  
Park Interpreter

Now that we are a month into summer as far as the calendar is concerned, the flowers of mid to late summer are appearing. One of those is the more apparent Fireweed which has a spike-like cluster of deep pink flowers at the top of a stem which may be as much as eight feet tall. The lower flowers mature first, so sometimes a plant may bear both flowers and seeds at the same time.

This showy, post-fire invader blooms during July and August and is quite a sight when in large numbers in a burned-over area. The plant when in flower will give a hillside the appearance of being in flame and when in seed the same hillside will look like it is covered by smoke.

This native of Eurasia is common from Greenland to California and from Alaska to North Carolina. The plant is well known as the many common names indicate: Purple Rocket, Persian Willow, Rosebay, Firetop, Indian Wickup and Blooming Sally, just to mention a few. Bees seek it out as a source of nectar and when it is very young, the shoots may be cooked and eaten like asparagus, the leaves may be used as tea, and the pith of the plant used as an ingredient in soup.

## VW-Audi service specialists Now Open for Business!

KALKASKA — Northeast Auto Specialists, an auto service firm specializing in the repair of Volkswagens and Audis, is now open for business here at the corner of U.S. 131 and M-72.

Owner of the firm is Randy Lucyk, a licensed master mechanic and county resident, who's happiest when he's working on a cantankerous vehicle.

As incentives to launch his new business, Randy is now offering a six month, 6,000 mile warranty on all his work; special Senior Citizen discounts; gas allowance for customers bringing their vehicles to his shop for work ("I'll pay for the gas to and from here," explains Randy), depending on the distance travelled and amount of work that has to be done; ten percent parts and labor discount on a customer's first visit; and 25 percent off list price on Bosch parts.

Originally from the Garden City area, Randy spent four years training as a mechanic before moving his wife and two children to the area in 1979.

Here at Northwest Auto Specialists he's com-

pletely equipped to handle a variety of service, including fuel injection, air conditioning, brakes and shocks, clutches, drive trains, mufflers, heaters, etc.

"More important than even my service is the fact that due to contacts in the industry, I am able to keep up with the changes in new equipment and the things that a mechanic has to know in order to offer top notch timely service," notes Randy.

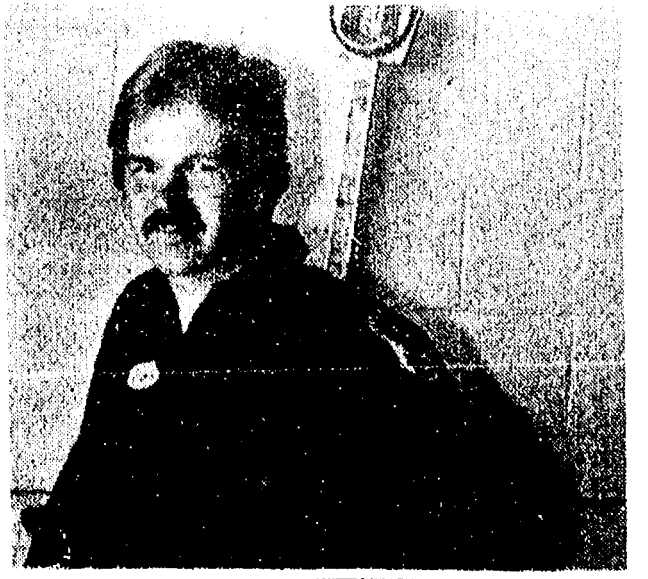

He also has been taking night courses at Northwestern Michigan College in business and management to better prepare him for the rigors of running his own business.

Northwest is offering used as well as new parts, and one day lag time on parts order.

Customers are welcome to contact Randy for estimates before having their mechanical work done. "I like to have the car right here so I can go over it, before making an estimate," he explains.

To ensure timeliness of service, customers are encouraged to call ahead. Northwest's phone number is (616) 258-2886.

Bill Horsell, of Vanderbilt puts the finishing touches on a new bank covering 50 cedar posts and ribwork put in by the crew. ## RSVP Reports

by Sherry Haag  
Director

Welcome to news of the Retired Senior Volunteer Program. In a recent article titled, Examining the Link Between Work and Good Health, from the Area Agencies on Aging Association of Michigan newsletter, it was stated, "Early or forced retirement can have dire consequences for a person's emotional and physical well-being, according to medical doctors and some aging advocates. As far back as 1972, the American Medical Assoc.'s Committee on Aging and Retirement opposed mandatory retirement because the "sudden cessation of productive work and earning power of an individual caused by compulsory retirement" often leads to "physical and emotional deterioration and premature death."

More recently, studies have discovered an unusually high mortality rate for persons - particularly older men - who retire early or were forced to retire before their capabilities diminished. In other instances, individuals have committed suicide after being forced to retire, or in the case of a Lambertville, Minn. man, after being demoted and then replaced by a younger worker he had trained.

On July 10, U.S. Sen. Charles Percy (R-Ill.) told fellow lawmakers that an important link exists between good health and activity. "The most important and fundamental emotional need of older persons is to continue as active and contributing members of society," he said.

In Durham, N.C., doctors at Duke Univ.'s Medical Center discovered that patients who were still working fared much better in heart bypass surgery than those who did not work. "Perhaps doctors should stop advising their coronary patients to quit work," said Redford Williams, one of the center's doctors. He attributed their higher success rate to feelings of self-worth, the ability to cope and having something meaningful to do with their lives.

Keeping busy seems to be advice all experts and persons involved in the aging fields give to seniors. Whether it's in a job or as a senior volunteer keeping busy and active seems to be the way to stay healthy - mentally and physically.

At present, volunteers are needed for a visiting program to Timberview Village. Transportation is provided. Every 3rd Wednesday, from 1 to 3 p.m.

## Celebrate 25th Anniversary

On August 1st, 1982, a surprise buffet-reception was given in honor of the 25th Wedding Anniversary of Bonnie and Gerry Yates of Grayling.

Bonnie and Gerry were married on August 17th, 1957 at Victory Lutheran Church in Detroit. The reception was given by their daughters, Bonnie Jean, Julie, and Amy at the home of their Aunt Carolyn and Uncle Marvin in Rochester, Michigan.

Many family members and friends contributed time, food, and decorations toward making the party the success it was. Bonnie and Gerry were truly surprised

to see the 107 family members and friends who gathered to honor them, including Pastor William Wacke of Columbus, Ohio, the minister who married them 25 years ago.

Pastor Wacke officiated as the happy couple reaffirmed their vows, flanked by most of the original wedding party. After reaffirming their vows, Bonnie and Gerry opened the many beautiful cards and gifts they received both from those attending, and from friends and relatives unable to attend. Bonnie and Gerry plan to celebrate their anniversary further by taking a trip to Mackinac Island.

## OVER THE BRIDGE...AND HOME

There was a time when rivers slowed man's journey. Now we speed across them going to and from our work... with hardly a thought for the engineering genius which has enabled man to span every river with his bridges.

In our journey through life there are times when we face hazards or frustrations. For millions, religious faith has been the bridge to new horizons or opportunity and realization.

You need, your family needs, the spiritual stimulation and enrichment your place of worship can provide. The resources gained can span the week.

## Senior Citizens Homemakers Services

Now that the days are longer maybe you have a few hours that you would like to volunteer some time to this much needed and worthwhile program. Your Senior Citizens need you to help with these services. We also need your comments & ideas to help us serve you better. If you could set aside 2 or 3 hours a week to visit or help a handicapped Senior Citizen, you would bring some sunshine into their life and yours.

The Homemaker Service consists of assistance in performing routine household activities to maintain an adequate living environment for the individual. Homemaker tasks might include light housekeeping, meal preparation, laundry services, grocery shopping and transportation to medical appointments. We are receiving the loveliest letters from our clients commending our program. I would like to thank all of you for your letters and donations.

Remember if you, or if you know someone who needs our services, please call the Center (348-9314) for more information.

Homemaker Coordinator
